Honest –Trustworthy- Confidential- Welcomed- Hospitable –Caring- Respectful -Valued -Inclusive -Creative
Innovative -Progressive –Reliable- Dependable –Collaborative-Accountable –Accessible- Transparent
Patient Centered –Team Oriented –Community Oriented-Culturally Appropriate- Holistic.

Mission: To promote the spiritual, mental, and physical well-being of the Canoncito Band of Navajos/To'Hajiilee area with comprehensive, culturally sensitive, and community-oriented healthcare.

Vision: To be a health campus of quality and excellence, where individuals and families are empowered to be healthy through all stages of life.

Goals/Objectives: Engage and Collaborate with the community/Enrich Patient Experience. Actively collaborate, participate and coordinate activities with the Court, Schools, Social Services, Senior Center, and Tribal Official. Provide education and training activities.

2021/2022 Successes

- Crisis Response: The network with local and outside resource to help the community members with basic necessities to overcome the covid-19. Deliver Food-box, water, essential PPE, sanitizers, facemask, hand-outs on covid-19, books, board-games, puzzles, craft, schedule Covid testing's, transportation to and from shelter, hospitals, road-blocks to pass out information on quarantining, safety measures and posting flyers, poster and network remotely to those that have internet.
- Partnerships with NM DOH Alliance CDC, the focus vaccine equity, health equity, rebuilding community. Albuquerque Area Indian Health Board-Southwest Tribal Epidemiology Center, focus on Suicide, Adverse childhood experience (ACE's), Intimate partner Violence (IPV) in the midst of the covid-19 pandemic, to focus on community readiness assessment, identify screening tools to use and implement prevention projects to address these critical health priority areas. UNM-PRC/VIVA Connect partner with us to create a walking trail in the community to help community improve fitness and prevent or manage various conditions.
